Fix Denials, Eliminate Manual Lift, Recover Revenue

Ailevate's Revenue Recovery is an on-premises AI solution purpose-built for denial resolution—automatically correcting coding errors in denied healthcare claims without manual rework or disrupting existing workflows.

15%-20%
of claims are denied on first submission*

The Challenge:
65%
of denied claims go unworked due to time and resource constraints**

## ~$262B
lost annually by U.S. hospitals due to denied claims**

Our Solution: AI-Powered Denial Resolution

✔ Seamlessly integrates with EHRs, PMS, and clearinghouses

✔ Continuously adapts to coding changes to improve over time

✔ Identifies and corrects coding errors in denied claims

Why Choose Ailevate?

✔ **Hands-Free Denial Correction**
Identifies and corrects coding errors in denied claims

✔ **Seamless Integration**
Works within your existing systems—no workflow disruption

✔ **Scalable and Secure**
Handles denial correction at scale with full control over PHI via on-premises deployment

The Benefits

01 Higher Recovery Rates
Boost recovery rates with Ailevate insights[†]

02 Faster Cash Flow
Real-time error correction enables quicker reimbursement

03 Cost Efficiency
Reduces reliance on additional staff or costly RCM tools

04 Data Security
On-premises AI ensures compliance and control over sensitive data
